EXECUTIVE SUMMARY

A Bachelor's Degree graduate in Information Systems with hands-on experience in Web Development, UI/UX Design, Graphic Design, System Administration, as well as Logistics and Warehouse Operations. Proficient in Microsoft Office, Google Workspace, system documentation, business process analysis, MySQL, JavaScript, PHP, CorelDRAW, Figma, Adobe Photoshop, and Warehouse Management Systems (WMS). Possesses strong analytical thinking, problem-solving, communication, attention to detail, and teamwork skills developed through professional internship, academic research, and competitive design projects. Eager to contribute to roles such as IT Staff, Web Developer, Business Analyst, Administrative Staff, UI/UX Designer, Graphic Designer, or Warehouse & Logistic Specialist.

EDUCATION

Universitas Prima Indonesia **2022 - 2026**
Bachelor of Information Systems, Faculty of Science and Technology GPA: 3.97 / 4.00 (transcript)

Journal Publication (Papers)
"Comparative Evaluation of Decision Tree and Random Forest Algorithms for Stroke Risk Prediction Using a Sensitivity-Based Approach"

- Published research article in a SINTA 2 Accredited National Journal.
- Evaluated Decision Tree (CART) and Random Forest models on a public clinical dataset comprising 5,110 observations.
- Applied Synthetic Minority Over-sampling Technique (SMOTE) and sensitivity optimization to resolve severe class imbalance and minimize false negatives.

Relevant Courses: Data Science Fundamental, Data Mining, Big Data Analysis, Artificial Intelligence, Statistics, Database Systems, Web Fundamental Programming, Software Engineering, Information System Analysis And Design, Computer Applications, Graphic Design.

WORKING/ INTERNSHIP EXPERIENCES

Warehouse Administration Staff, PT DSV Solutions Indonesia (certificate) **August – December 2025**

- Supported end-to-end warehouse operations, including Inbound, Inventory, and Outbound activities, in accordance with standard operating procedures.
- Identified operational issues and proposed Kaizen/Continuous Improvement ideas every two weeks to improve process efficiency and accuracy.
- Developed a Cycle Count Support Website as a final internship project to support and simplify inventory data recording and verification.
- Conducted Daily Cycle Counts, compared physical stock with WMS data, and recorded and analyzed results using Microsoft Excel to monitor inventory accuracy and identify stock discrepancies.

Administration Staff, Commission IV - Secretariat of DPRD Medan (certificate) **March – June 2025**

- Applied Information Systems skills to support the digital management of administrative documents and data.
- Prepared meeting and field visit (inspection) minutes and organized documents to facilitate efficient access to information.
- Managed and archived official travel documents and performed document scanning to support a more structured electronic filing system.
- Assisted in document verification and digital archive management to improve the efficiency of administrative processes.

Team Leader, Kampus Mengaja (certificate) **September – December 2025**

- Strengthened leadership, problem-solving, and teamwork skills through the implementation of impactful school-based programs.

- Developed adaptability and decision-making skills by addressing challenges in programs focused on improving students' literacy and numeracy skills.
- Conducted training sessions on Microsoft Word, Excel, Canva, and Artificial Intelligence tools for teachers and students to support digital skill development.
- Collaborated with teachers and school staff to create a more relevant learning environment tailored to students needs.

ORGANIZATIONAL EXPERIENCES

Graphic Designer, PAMAS Universitas Prima Indonesia **June – August 2023**

- Designed main posters for organizational events using CorelDRAW and Canva.
- Created graphic materials such as posters, brochures, and social media content for various campaigns and events.
- Collaborated with the marketing team to ensure alignment between design outputs and communication strategies.
- Managed design projects from concept to completion while meeting deadlines and maintaining quality standards.

Science and Technology Division, UNPRI Creative (certificate) **December 2022 – February 2023**

- Gained knowledge in Web Programming, including UI/UX Design, Front-End, and Back-End development.
- Developed data analysis skills using various tools and techniques for data interpretation and visualization.
- Collaborated with team members on technology projects to solve problems and improve processes.

AWARDS

- 1st Place – HIPPI 50th Anniversary National Logo Contest (certificate) August 16, 2026
- 1st Place – UTP Surakarta 46th Anniversary National Logo Contest (certificate) March 4, 2026
- Finalist – Acenesia National Logo Design Contest (certificate) August 9, 2024

CERTIFICATIONS

- English Language Assessment - C1 | Altissia (certificate) September 2026
- Certificate in Business Intelligence Associate (CBIA) | CertNexus (certificate) June 2026
- Industrial Entrepreneurship Certification Level 4 | BNSP (certificate) April 2026

COURSES

- Data Science & Data Analysis – MySkill (certificate) September - October 2026
- Microsoft Excel, Word and PowerPoint – MySkill (certificate) September - October 2026
- Frontend - JavaScript – MySkill (certificate) September - October 2026
- SQL for Data Analysis – MySkill (certificate) September - October 2026
- Microsoft Power BI – MySkill (certificate) September - October 2026

SKILLS

Languages: Bahasa Indonesia (Native), English.
Software: Microsoft Office, Google Workspace, SQL/MySQL, CorelDraw, Figma, Adobe Photoshop, Power BI, Google Data Studio, Tableau, WMS, SAP,
Hard Skills: Data Analysis, UI/UX Design, SQL/MySQL, PHP, JavaScript, Java, Python, Web Development, Warehouse Operations (Inbound, Inventory, and Outbound).
Soft Skills: Problem Solving, Critical Thinking, Continuous Learning, Teamwork, Collaboration, Communication, Time Management, Creativity, Adaptability, Commitment.
